Saving & Transforming Lives...
Ending Domestic & Sexual Violence**

2016 ANNUAL REPORT

**Partners...The Key
To Our Success**

Summary of Program Services

Service Area: Includes Harris, Brazoria, Galveston and Chambers counties – population of over 700,000. We collaborate with 13 police agencies, five hospitals, four criminal justice systems, and many other service providers.

Service Schedule: Our services are available 24 hours a day, 7 days a week.

Program Service Fees: None; the services we provide are made possible by funding from grants, fundraising efforts, our resale shop and generous community members.

24-Hour Crisis Hotline: Provides assistance with crises and access to all agency services. Our crisis hotline is a safe place for victims to talk and explore solutions.

Shelter: Our emergency shelter houses up to 72 adults and children at any given time. The average stay in 2016 was 49 days. Shelter increases safety and opportunities to plan for self-sufficiency. While in shelter, clients have access to food and nutrition programs, help with clothing and transportation, on-site child care and case management. Life enrichment classes on parenting, problem-solving, healthy communication and other life skills are also offered.

Accompaniment: Available 24 hours a day for supportive services at police stations, emergency rooms, district attorney's offices, court proceedings, health-care visits, businesses, churches and schools.

Legal Advocacy: Offers assistance with navigating the criminal justice system, obtaining protective orders and Crime Victim's Compensation. B ATP staff can also provide expert testimony in court.

Counseling: Our therapists work with adults and children to counteract the negative impact of trauma, decrease isolation and increase an individual's confidence and dignity. Counseling may be individual or group and may include art and play therapy, sand therapy, cognitive behavior and other modalities.

Housing: B ATP can assist eligible individuals with permanent housing by helping to pay deposits, utilities and rent while the recipient works toward becoming self-sufficient.

Summary of Program Services cont'd.

Violence Prevention: B ATP offers primary violence prevention education to area youth. Our goal is to prevent violence by exploring root causes, educating, and building leadership to continue prevention efforts. Educational sessions are conducted over a nine week period.

Community Awareness: Staff members can create educational presentations or setup displays for community fairs, meetings, workshops, etc. Topics may include: domestic violence, sexual assault, child abuse, elder abuse and personal safety tips. B ATP's CEO can assist employers in establishing and monitoring domestic violence policies and workplace safety guidelines for victims, as well as provide insight on what to do when domestic violence is reported or "comes to work."

Volunteerism: B ATP welcomes *and needs* people in our community to contribute their time and talents in support of the agency's mission. There are opportunities to assist with answering our 24-hour crisis hotline, volunteer at our resale shop, support shelter operations, serve on a committee or join our board of directors. Community members can also get involved by organizing special projects such as maintenance days, teaching life enrichment classes or serving meals at shelter.

Resale Shop: Our resale shop meets the needs of our clients at no cost to them. It also sells gently used or new items to the public. Income received is applied to the cost of agency services.

Family Support: B ATP helps non-sheltered clients with food and clothing. Non-sheltered and sheltered families also receive assistance with Christmas gifts through our "Christmas Store." Ask how to be involved.

Transportation: B ATP has a limited amount of funds earmarked for assisting clients with bus fare for employment.

"Throwing holiday parties for the children in shelter is one of our favorite events. I want to share something that happened while we were there: I was explaining the security and safety measures to two students who had not volunteered before when they said they already knew the procedures. They said that they had lived at B ATP when they were little; that B ATP had really helped out during a very tough time in their lives. They were happy to be on the other side of that tough time, doing well, and now giving back to the very place that had helped them. It really affected me to hear their story. God bless you for the work that you do!"
